## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-9 and 15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Independent claims 1, 6 and 15 recite the term "staple...." It is unclear from the claim precisely what use of the term "staple" Applicant is using. Because the instant invention is a bookbinding image recording apparatus, the use of the term "staple" can have at least two meanings that are mutually exclusive. Which meaning does Applicant attach to the term "staple" as used in the instant claims?

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-9, 15-16 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by English translation of JP 09-174956 to Fuji Xerox.

The page numbers referred to herein are the Examiner's handwritten page numbers on the bottom of each sheet of the Fuji Xerox reference. Further, the Examiner has interpreted the term "staple" to be some sort of image generation device. With respect

to Claim 1, Xerox teaches the staple 2, the storage device 3, the second print job(new job) and the printing the read print data in the Solution of the Abstract. With respect to Claims 2-3,5-6,8-9 Xerox teaches the prescribed ID information and the reading of specific data and storing the data based on prescribed ID in figures 7-10 and the issuance of new ID( job N) in figure 10 . With respect to Claims 4,7, Xerox teaches the bookbinding information (how to order the pages for the second print job) in figure 10 and page 10. With respect to Claims 15 and 16, note the rejections of Claims 1-9 above and the display means 20 and the text following "Drawing 7" of Xerox on page 15.

#### ***Election/Restrictions***

5. Applicant's election without traverse of Claims 1-9 and 15-16 in Paper No. 9 is acknowledged.
